February 25, 2010

Dear Keming,

We have reached the end of an unforgettable Olympic experience. The Vancouver 2010 Winter Olympic Games have been an unequivocal success both from a sport and from a broadcast perspective.

The first Winter Olympics to be fully covered in High Definition and digital surround sound offered to billions of spectators around the world the opportunity to enjoy the achievements of the best athletes of the World, competing in the beautiful Venues of Vancouver and Whistler and surrounded by the spectacular Canadian landscape and to participate from afar in this peaceful celebration of the nations of the World.

Reports of record breaking viewer ratings arrive every day from all over the World, as well as complimentary testimonials from Rightsholding Broadcasters for the quality of the Television coverage.

The technical facilities and services of your company have contributed greatly to this success. Allow me to thank you on behalf of OBS, for the quality of these services and the excellent cooperation we had during the years of preparation, as well as during the Games.

We are looking forward to our paths crossing again in the future and to exploring possibilities for a renewed cooperation in our Olympic endeavours.

Kind Regards,

Manolo Romero
